

INVITATION TO TENDER

Design, Supply, Installation and Commissioning of the 80MW/200MWH Battery Energy Storage System

Publication date: 6th May 2021

Submission date: 20th July 2021

The Government of Mongolia has received financing from the Asian Development Bank (ADB) toward the cost of the First Utility-Scale Energy Storage Project. Part of this financing will be used for payments under the contract named above.

The Ministry of Energy, Mongolia (“the Employer”) invites sealed bids from eligible Bidders for the construction and completion of “Design, Supply, Installation and Commissioning of the 80MW/200MWh Battery Energy Storage System, plus 2 years of startup operation support” (“the Facilities”).

Open Competitive Bidding (International) will be conducted in accordance with ADB’s Single-Stage: Two-Envelope bidding procedure and is open to all eligible Bidders as described in the Bidding Document.

Minimum Eligibility and Qualification Criteria

Average Annual Turnover: The Bidder must demonstrate a minimum average annual turnover (revenue) of **USD 120 million** calculated as total certified payments received for contracts in progress or completed, within the last **three (3) years**.

Financial Resources:

- For Single Entities: The Bidder must demonstrate that its financial resources, less its financial obligations for its current contract commitments, meet or exceed the total requirement for the Subject Contract of **USD 50 million**.
- For Joint Ventures:
 - a. One partner must demonstrate that its financial resources, less its financial obligations for its own current commitments, meet or exceed its required share of **USD 20 million** from the total requirement for the Subject Contract.
 - b. Each partner must demonstrate that its financial resources, less its financial obligations for its own current contract commitments, meet or exceed its required share of **USD 12.5 million** from the total requirements for the Subject Contract.
 - c. The Joint Venture must demonstrate that the combined financial resources of all partners, less all the partners’ total financial obligations for the current contract commitments, meet or exceed the total requirement for the Subject Contract of **USD 50 million**.

Technical Experience:

1. Supply and installation of at least one utility-scale battery energy storage system (BESS) with capacity of not less than 30 MWh;
2. Cumulative, supply and install utility scale BESS of not less than 120 MWh; and
3. Supply and install at least two contracts greater than 20 MWh successfully operated for at least one year.
