

## REQUEST FOR EXPRESSION OF INTEREST

### Consulting Services for Site Survey for PROENERGIA +

**Publication date:** 28<sup>th</sup> Jul 2021

**Submission date:** 18<sup>th</sup> Aug 2021

**Country:** Mozambique

**Duration:** 3 months

The purpose of engaging a consultant firm, is to access all project sites and collect the data of existing infrastructures and households to be electrified and their distribution on the project site. For this purpose, it is expected that the consultant will travel to all project sites performing the preliminary site surveys and hand over the collected data in a proper required format.

#### Scope of Work

The objective of this work is to:

The services expected from the Consultant include, in particular:

- Have a field survey to check and validate the distribution line routes,
- Conduct line route survey using real-time kinematic (RTK) GPS/GNSS equipment, network modelling, structure spotting and pegging,
- Carry out necessary geotechnical surveys (soil investigation reports etc.)

The survey outputs will be used for planning, designing and construction of distribution lines

Consultants may associate with other firms to enhance their qualifications, but should indicate clearly whether the association is in the form of a joint venture and/or a sub-consultancy. In the case of a joint venture, all the partners in the joint venture shall be jointly and severally liable for the entire contract, if selected.
