

## REQUEST FOR EXPRESSION OF INTEREST

**Publication date:** 11 September  
**Submission date:** 25 September  
**Country:** Regional (East Asia and Pacific)  
**Duration:** less than 6 Months

### Scope of Work

The Expression of Interest seeks consultancy services to assess renewable energy developments in the East Asia and Pacific region. The objective is to identify technical, regulatory, and financial challenges and provide recommendations for scaling up renewable energy to achieve carbon neutrality. The report will evaluate current achievements, and propose actions required to meet net-zero targets. The consultancy will also involve consultations with the private sector and an understanding of how public financing can catalyze technological innovation and private investment.

The project envisions large-scale data gathering and analysis, potentially including power system and financial modeling. It will develop a roadmap to unlock the necessary investments. The consulting team will work closely with World Bank experts, country authorities, and sector stakeholders.

### Eligibility Requirement:

- **General Experience:**
  - Regional and global experience in the topic.
  - Local presence in the East Asia and Pacific region.
  - At least 10 years of experience in consultancy services.
- **Specific Experience:**
  - Previous experience in renewable energy projects.
  - Familiarity with local regulations and standards.
  - Access to or availability of key experts required to perform the services.
- **Administrative and Financial Capacity:**
  - Evidence of strong financial and administrative capacity to undertake consultancy services effectively.
- **Proposed Key Staff:**
  - Team Leader
  - Financial Specialist
  - Power Engineer/Power Market and Regional Trade Specialist
  - Power Sector Regulatory Specialist
